

## Product Owner Bootcamp with CSPO

---

### Course Summary

#### Description

As described in Scrum Guide, the Certified Scrum Product Owner is responsible for maximizing the value of the product resulting from work of the Development Team. The Certified Scrum Product Owner is the sole person responsible for managing the Product Backlog. Product Backlog management includes:

- Clearly expressing Product Backlog items
- Ordering the items in the Product Backlog to best achieve goals and missions;
- Optimizing the value of the work the Development Team performs;
- Ensuring that the Product Backlog is visible, transparent, and clear to all, and shows what the Scrum Team will work on next; and,
- Ensuring the Development Team understands items in the Product Backlog to the level needed.

The Certified Scrum Product Owner may do the above work, or have the Development Team do it. However, the Product Owner remains accountable.

The 2-day Certified Scrum Product Owner (CSPO) course gives you the tools to manage your backlog to achieve maximum ROI and provides the foundations to be an effective Product Owner.

#### Topics

- Manage your backlog to achieve maximum ROI
- Create a Product Backlog that puts business priorities first.
- Work with a team to enable business and technical innovation.
- Leverage the business benefits of Scrum to maximize Return-On-Investment.
- Describe Scrum to others including the roles, meetings, artifacts & principles, and benefits and pitfalls.
- Apply tools and techniques to the role of Product Owner for a single Scrum team.
- Fulfill the requirements of the Certified Scrum Product Owner program.

#### Audience

- Product Managers
- Project Managers
- Consultants
- Business Analysts
- Functional Managers
- Executives
- Business Managers
- Sales People

If you have been doing Agile or Scrum for years, this course is a valuable reminder of the details, is great for networking and learning from peers, and a great start to an intensive path of certification.

If you are considering using Scrum, this is a great opportunity to learn about the best circumstances to use Scrum, common challenges, what results to expect... and when not to use it! Certified Scrum Product Owner is strongly recommended for Product Managers who are responsible for results, Business Analysts who want to advance their careers, and Project Managers who need to know how to work with Agile and Scrum teams.

#### Prerequisites

There are no prerequisites for this course.
